

Subject Name- RBT

Important Questions

1. Define the Railway engineering?
2. Define the permanent way and explain the types gauges?
3. Define the rails and explain the function and its types of rails?
4. Define the sleepers explain the function and its types of sleepers?
5. Define the Ballast explain the function and its types of Ballast?
6. Define the fixtures and fastenings and explain its function?
7. Define the point and crossing?
8. Define the Railway stations ?
9. Explain the selection for railway stations.
10. Explain the classification of railway station?
11. Define the level crossing.
12. Define the signaling?
13. Explain the classification of signal?
13. Define the track maintenance
14. Explain the classification of track maintenance jobs?
15. Define the Bridge engineering?
16. Component parts of a bridge and their functions?
17. Explain the site selection and investigations of bridge?
18. Define the bridge foundation.
18. Define the cofferdams of bridge
19. Define the spread or open foundation
20. Define the Raft foundation.
21. Define the well foundation.

22. Define the piers.
23. Define the Temporary bridge
24. Define the permanent Bridges?
25. Define the Tunnel Engineering?
26. Discuss the history of development of tunnels.
27. Define the tunnel investigations.
28. Define tunneling.
29. Explain the lining of tunnels.
30. Explain ventilation in tunnels.
