The Quest for achieving higher learning is growing and education serves a critical function in career building. The object of learning is to prepare the young students to educate themselves throughout their lives. There is no doubt that the number of institutions is growing rapidly but there is dearth of quality education. Secretary General's Message

Mrs. Anupinder Kaur Sandhu

All round development of the students is the primary aim of Jasdev Singh Sandhu Foundation. The total personality of an individual is not dependent on classroom teaching. Their interest in co-curricular activities, sports, their level of abstract and concrete thinking, knowledge, decision making ability, attitude and value orientation, all these are included in personality development. Our institutions nurture the dream to break the frontiers of conventional learning and empower our students with a world class education that rests on enduring knowledge of frameworks and essential leadership skills. Different courses offered by us help the students to continually stretch their minds, broaden their horizons and refine their goals. The exciting and challenging environment in the campus helps the students to explore and learn from a multitude of different perspectives, still maintaining individuality and uniqueness. We are certain that our students have the fire in them to make a big difference to varied fields around the world.
