Chairman's Message

S. Tejinder Pal Singh Sandhu

The Quest for achieving higher learning is growing and education serves a critical function in career building. The object of learning is to prepare the young students to educate themselves throughout their lives. There is no doubt that the number of institutions is growing rapidly but there is dearth of quality education. We at Jasdev Singh Sandhu Group of Institutes (JSSGOI) make constant endeavors to teach the budding professionals through innovative ideas. The aim of Jasdev Singh Sandhu Group of Institutes (JSSGOI) is to impart comprehensive Knowledge and practical skills which are required in every stream and hence, the foundation is making the best of efforts for the fulfillment of the aim. The outstanding performance of our students in the academic as well as co-curricular activities depicts all these efforts.

Secretary General's Message

Mrs. Anupinder Kaur Sandhu

All round development of the students is the primary aim of Jasdev Singh Sandhu College of Education and Jasdev Singh Sandhu Degree College. The total personality of an individual is not dependent on classroom teaching. Their interest in co-curricular activities, sports, their level of abstract and concrete thinking, knowledge, decision making ability, attitude and value orientation, all these are included in personality development. Our institutions nurture the dream to break the frontiers of conventional learning and empower our students with a world class education that rests on enduring knowledge of frameworks and essential leadership skills. Different courses offered by us help the students to continually stretch their minds, broaden their horizons and refine their goals. The exciting and challenging environment campus the students to explore and learn from a multitude of different perspectives, still maintaining individuality and uniqueness. We are certain that our students have the fire in them to make a big difference to varied fields around the world.

Manager's Message

Sartaj Singh Sandhu

The last two decades have seen a remarkable growth in higher education in India and across the globe. The move towards interdisciplinary studies and interactive learning have opened up several options as well as created multiple challenges. India is at a juncture where a huge population of young crowd is opting for higher education. With the tremendous growth of privatization of education in India, the major focus is on creating a platform for quality in knowledge enhancement and bridging the gap between academia and industry.

I'm a strong believer and practitioner of the dictum "Knowledge is Power", Jasdev Singh Sandhu Group of Institutes has been on the path of delivering quality education by developing the young human resources on the foundation of ethical and moral values, while boosting their leadership qualities, research culture and innovative skills.

With firm faith in the saying, "Intelligence plus character –that is the goal of education" (Martin Luther King, Jr.), I strongly believe JSSGOI is marching ahead in the right direction, providing a holistic education to the future generation and playing a positive role in nation building. We reiterate our endeavor to provide premium quality education accessible to all and an environment for the growth of over-all personality development leading to generating "GLOBAL PROFESSIONALS".

Message from the Registrar

Raj Kumar Guleria

I extend welcome and good wishes to those who make an effort to access the Sandhu Group website. Education in general and higher education in particular are important factors in the development of our society. A good education system develops the thinking of children towards progress, nationalism and social uplift.

In the modern educational scenario, science, economics and professional education move hand in hand. Symptoms of social change or development make itself felt in all these areas. Technological progress in the last two decades has brought a revolution across the globe.

Today large numbers of young students seek admission in higher education. With this fact in view, the responsibility of colleges and universities also increases. Jasdev Singh Sandhu Group of Institutes (JSSGOI) is contributing to this noble cause and realizes its responsibility.

JSSGOI provides ample opportunities to students to grow and excel in academic, sports and extra-curricular activities. We are always at the disposal of the students for active & positive support and guidance of any kind whatever they require.

With good wishes,

Raj Kumar Guleria
Registrar
